

Credit Union Cyber Insurance

Protection for network security,
privacy exposures, and much more.

CYBER INSURANCE

Our cyber insurance provides your Credit Union with an affordable programme that protects from unexpected cyber threats.

How does it work?

Cyber Insurance fills the gaps of traditional insurance policies (e.g. Commercial General Liability, Professional Indemnity and Crime) and covers the credit union against multiple cyber threats. Our policy protects the Credit Union against extortion, business interruption and data restoration as well as protecting against third party liability (outside the Credit Union) including privacy liability, network liability and media liability.

Why take out Cyber Insurance?

Data leaks and data losses can lead to regulatory fines and PR nightmares. Attacks can lead to servers being shut down which in turn could lead to loss of profits and loss in confidence. Cyber fraud is now the world's biggest type of fraudulent activity.

Benefits

- Cyber incident response costs cover.
- Network security and privacy liability cover.
- Cover for regulatory costs and fines.
- Ransom cover.
- Cover for intellectual property infringement and defamation.
